In

In the Case of Exportation of Calveskins, the following Orders are to be observed, Monday the second of *October*, 1654.

At the Committee for preservation of Customs.

(t) Calveskins exported.

(t) Whereas the Commissioners of the Customs have presented unto this Committee the great difference betwæn them & the Merchants and traders in the severall Ports of this Nation, arising from want of power to take their bonds for thræ shillings and four pence of the duties payable upon the Exportation of every dozen of Calveskins, as heretofore they could have done; and their enforcing the said Merchants and others, to pay the whole duty of seven and four pence, which is by them thought to be a greater duty then the nature of the commodity will bear; and that hereby the said Commissioners conceive the Commonwealths Revenue hath in some measure bæn lessened, the chief Merchants and traders therein having discontinued the Exportation thereof; and although others of lesse value have undertaken the same, yet have they endeavoured in a sculking underhand way to export the same in Creeks and upon Beaches, and unusuall places, on purpose to defraud the Commonwealth of the whole duty thereof, notwithstanding all due care hath bæn taken to prevent the same; all which this Committee having taken into consideration, do think fit, & order, That the Commissioners for the Customs do henceforth permit and suffer Calveskins (not exceeding the weight limited in the book of Rates) to be exported beyond the seas, receiving onely subsidy from the English men four shillings per dozen, until this Committee shall give further order, who intend as soon as opportunity shall serve, to report the same unto the Parliament; And that in the mean time the said Commissioners for the Customs do take care that good bonds be given by the Merchants and others, Exporters of such Calveskins, for payment of thræ shillings four pence upon every dozen of such skins as shall be exported, in case the Parliament shall think fit to continue the said duty.

William Roberts. John Stone.
George Bennets. John Bocket.
A. Baines.

(u) Horses to the English Plantations.

(u) Leave is to permit Horses to be exported upon Licence from his Highnesse or Council to any of the English Plantations in America, upon payment of twenty shillings custom for each horse, according to an Ordinance of his Highnesse and Council, dated the 30th of January, 1653.

Directions

Directions concerning the Levying the new Impoſt on Coals.

IN regard of many abuſes in the meaſure and lading of ſhips with Coals at Newcaſtle and Sunderland, in both which Ports the meaſures are not onely altered from the firſt eſtabliſhment, but do alſo much differ the one from the other, which ought to be of the ſame gage. And that alſo the ſhips, though ſome more, and ſome leſſe, yet all do exceed and make out more then the quantities which they do enter, for which they take out Cocquets in relation to thoſe meaſures now in uſe in the forelaid Ports; and although the alterations of the ſeaſons of the year, and the wetneſſe and drineſſe of the coals cauſe ſome ſmall difference in the meaſure, yet it is evident, that theſe differences and uncertainties are made uſe of to the advantage of the traders in coals, and loſſe to the Commonwealth in the Impoſt of two ſhillings per chalder lately impoſed, and in the cuſtom of coals tranſported; for prevention of which abuſes, and that the aforeſaid Impoſt and Subſidy may be duly levied by the Collectors, theſe following rules are to be obſerved. Impoſt on Coals.

That thirty ſix buſhels Wincheſter meaſure are allowed to a chalder.

A buſhell containeth eight gallons and one quart filled with water, and muſt be nineteen inches and a half broad at the top from the outſides thereof.

According to this buſhell the meaſure uſed in that Port muſt be juſtly computed, and the Impoſt received upon the Certificate of the chief Magiſtrate, and the report of the ſworn Meater (if there be any) according to the directions of the Act, or by ſuch other Inſpection and ſurvey of the diſcharge of the coals, as may perfectly ſatisfie the Collector in the delivery of each ſhips lading.

(x) That if any Colliers from Newcaſtle, Sunderland, or any other place of this Nation, do deſire after arrived in Port to pay their cuſtoms for their coals, and to go over ſeas, he is to take their entries upon ſight of their Cocquets, and to receive cuſtom due for the ſame, as the ſame are rated in the book of Rates London meaſure, viz. after the rate of eight pounds thirteen ſhillings and four pence the chalder; and that according to the ſaid rate he reckon, and cauſe them to pay Cuſtom for every chalder of Newcaſtle meaſure two of London, and for every chalder of Sunderland expreſſed in the Cocquet, three of London; and he that will not pay after this rate, and the two ſhillings per chalder Impoſt over and above, according to the ſaid London meaſure, let him not go over, but deliver his coals in the Port before departure; and in caſe of refuſall or reſiſtance, that the Collector call to his aid the civil or military Power, and certifie his proceedings, and their miſcarriage from time to time unto the Commiſſioners. (x) Coalſhips entring for the Coaſt, and after arrived in ſome Port going over ſeas.

That if any ſhips ſhall be forced over ſeas with their lading, being ſtaff:

firſt bound for the Coaſt, and after offer to make entry and to pay the Cuſtoms for the goods according to his Cocquet, that he in no caſe to meddle therewith, but certifie the ſame unto the Commiſſioners, and having firſt obtained order from the Commiſſioners for the receiving of Cuſtom, he is to obſerve the foregoing Rules, viz. For every chalder of Newcaſtle meaſure two of London, beſides two ſhillings Impoſt, & for every chalder of Sunderland meaſure three of London, beſides the two ſhillings Impoſt which he is to receive accordingly.

(y) The Collectors of the Creeks to give bond to the Collector of the head Port about the Impoſt on coals.

(y) The Commiſſioners do think fit further to order and direct, that in all creeks belonging to any Port where any coals are imported, and the Impoſition thereupon due and payable, the Collector of ſuch Port is to come to the Collector or chief Officer of the reſpective creeks (who is to receive the ſaid duty) to enter into bond with ſufficient ſureties to his Highneſſe, in ſuch penalty as he ſhall think fit, reaſonable & anſwerable to the moneys that ſhall come to their hands, with conditions to pay unto him, or ſuch as the Commiſſioners ſhall appoint, at the end of every four dayes, all ſuch moneys as ſhall come to their hands from time to time for the Impoſition of ſuch coals, which he is to receive from them accordingly.

Rules and Inſtructions publiſhed by the *Commiſſioners* of the Cuſtoms, to be obſerved by all their Officers in the aſcertaining of the quantities of goods and merchandizes hereafter expreſſed, and not to be deviated from in any caſe whatſoever, without the ſpeciall advice and conſent of the *Collector* and *Surveyor*, and in the abſence of the *Collector*, of the *Surveyor* alone; and where there is no *Surveyor*, of the *Collector himſelf*.

Directions

Directions to be obſerved in the Coaſt-buſineſſe.

(a) Book of Entries for the Coaſt-buſineſs.

(a) EVery Collector is to prepare a Paper-Book for the entry of the Coaſt-Cocquets, Tranſires and returns for the preceding year, ending always the twenty fourth of Decemb. and to be returned together with the Book of Accounts, every twenty fourth of June.

That this Coaſt-Book be ruled with a double Margent, the one to the right hand, the other to the left hand, on each ſide; and in one part of it, he is to enter all Cocquets and Tranſires outwards, placing the name of the Port for which the Goods are ſhipped, in the Margent to the left hand: on the other ſide the date of the Certificate, or return from the Port where they were landed.

In another part of the Book he is to write, and enter all Cocquets and Tranſires for Goods inwards; and in the margent of the left hand, to enter the name of the Port from whence the Goods came, & in the other margent, the date of his Certificate or return.

In the body of the Book, between the two margents, he is to make an exact entry of the Goods, as well inwards as outwards, with the date of the reſpective Cocquets or Tranſires.

He is carefully to examine and compare theſe Books with the Bonds and files, before he return them into the Exchequer, and to file ſuch returns as he receiveth from the Ports, to the Bonds to which they belong, and ſo return them all together, as well the Bonds for which there are returns; as thoſe for which there are none, the twenty fourth day of June, at which time he is ſo to order his affairs, that he may with the moſt conveniency come up to London; but in caſe his affairs will not permit, he is to have a Commiſſion iſſued out of the Exchequer, for taking his Oath, and delivering in his books in the Country, and in caſe he cannot come up, he is to give notice a moneth before, that a Commiſſion may in time be ſent unto him.

The Collector, and the reſt of the Officers of every Port & Creek, are to take care, that no Goods whatſoever be ſhipped from Port to Port, before a ſufferance be paſſed for the ſame, nor any native Commodities, or manufactures made thereof, be tranſported before a Cocquet be paſſed, and good ſecurity be given for landing of the ſame, at ſome Port of this Nation, as is provided by Law, nor any forreign goods, before a Tranſire be paſt for the ſame; nor any more, or greater quantities then are therein ſpecified; and if any goods, or Merchandize be brought into one Port from another, or ſhall be landed, or found aboard any ſhip, whether landed, or not landed; for which there is no Cocquet, or tranſire, or being more in quantity, then is in the Cocquet, or tranſire therein mentioned, that in ſuch caſes, ſeiſure

ſelſure be made, and notice thereof given to the Commiſſioners; and that the ſame be not diſcharged without order. And as in all other Commodities, ſo eſpecially care is to be uſed in the Caſe of Fullers-earth, Wcoll, and Salt, the two firſt if exported, being dangerous to the Nation, and the other if more ſhipped, or landed, then is in the Cocquet, or Certificate expreſſed, is preſudiciall to the receipt of Exciſe, the ſame paying a very conſiderable Cuſtome and Exciſe.

That no Collector make a Certificate, Return, or diſcharge, before ſome Surveighor, or waiter, by enquiring the Cocquet, hath certified his knowledge of the landing of the Goods.

(b) In as much as the deceipt in and about the tranſportation of Fullers earth, Tobacco pipe Clay, and other Clay, ariſeth originally at the Ports & places where the ſame is ſhipped in that more is ſhipped then the Merchant taketh out a Cocquet for, for prevention whereof it is required. (b) Fullers Earth, Tobacco pipe Clay, Wcoll, &c.

1. That diligent care be taken by the Collector and Officers, that no more be laden on board any veſſell, then for which a Cocquet is paſſed.

2. That no ſhips that lie out of Command, be permitted to take in any of the aforeſaid Commodity, but that ſtay may be made of all lighters, or any other veſſels, that would carry any of the aforeſaid Commodities to ſuch ſhips.

3. That in caſe any woollen yarn, woollen ſlocks wooll-fels, Fullers earth, Tobacco pipe Clay, or any other Earth, or Clay, which may be uſed in the Art of Fulling, or any other goods, be brought from any Port of this Common-wealth, unto a Port by Coaſt Cocquet, that care be taken, that the Officers do ſee the whole quantity unladen in the Port, and the ſhips clearly unladen before departure. Remiſneſſe in this particular, gives occaſion to divers perſons, to land one half of their goods, and what ever they pleaſe, and to get a Certificate for the whole, and to tranſport, and carry the reſt beyond the Seas, without payment of Cuſtome.

And if any perſon, or perſons ſhall tranſport, or enter to be tranſported for the Coaſt, to any Port of this Common-wealth, any of the ſaid woollen yarn, woollen ſlocks, wooll-fels, earth, or clay; he ſhall take double ſecurity (over and above double the value) for the three ſhillings for every pound thereof, with condition, that the ſame ſhall be landed in ſome Port of this Nation, as is directed by Law, and according to the Tenor of the uſuall Coaſt Bonds.

In this, and all caſes, but this eſpecially, very good ſecurity is to be taken, for that it is expected, that all diligence, and good conformity be had thereunto.

Every perſon or perſons, that will ſhip, or carry any goods, or Merchandizes prohibited, or whereof any the duties of Cuſtome, and ſubſidy are payable, to diſcharge the ſame, in any other Port, or place of this Nation, ſhall before the ſhipping thereof declare, and manifeſt under his or their hands to the Collector and Checque of the Cuſtoms, in the Port where the ſame ſhall be ſhipped in the Cuſtome-houſe, the

the measure, length, number, and other contents and value of such goods, together with the name of the ship, and of the Master, the place of whence, and for which he is straighted, and with the approbation of the said Collector and Cheque, shall also make and enter into a sufficient Obligation in the Law, in which he shall be bound with sufficient sureties in such sums of moneys as shall amount to double the value of the goods so declared and manifested, with condition that the same shall be discharged at some Creek, within England or Scotland, and in no other place, and in case any the said goods, or Merchandizes shall be shipped in any ship or other vessell, to be carried, or passed between Port, and Port as aforesaid, before such Declaration shall be made, and security given as aforesaid, that then all and every the said goods, and Merchandize shall be forfeited and lost, the one moyetie, or value thereof to him, or them that will seize, or sue for the same, and the other moyetie, or value thereof, or the fine, or composition for the same, to be paid to the Commissioners of the Customes for the time being, for the use of his Highnesse, the Lord Protector, and the Common-wealth.

That every person or persons, that shall ship such goods, and shall be bound as aforesaid, shall within four moneths next after shipping thereof, bring a true certificate from the port or place, where he or they shall discharge the said goods, testifying that the said goods so shipped, and the true nature, length, weight, number and other contents or value thereof, are there discharged, which Certificate shall upon discharge of the goods be delivered to the party discharging the same, without delay, and all and every the said bonds, for which Certificates are returned, shall be delivered half yearly unto the Exchequer; with the Certificate thereunto annexed, and endorsed also thereupon, and every Midsummer (after the accompt of the Officer who did take them is passed) the said bonds shall be delivered to every person that will sue for the same, paying onely twelve pence for delivery thereof, to the Officer that hath the Custody of them.

All other of the said bonds that be expired, and no Certificate returned according to the conditions, shall be delivered into the Exchequer half yearly, that execution may be had thereupon.

Directions touching Seizures and Demises.

(c) Directions about Seizures.

(d) Commissioners and Register to be acquainted with all Seizures.

(c) That every Officer, who shall make any Seizure, or Demise of any Goods or Merchandize, as prohibited, or uncustomed, shall thereupon with all possible speed acquaint the Commissioners of the Customes therewith, and likewise certifie the same to the (d) Register of Seizures in the Port of London for the time being, that they may be by him duly recorded.

That

(e) That such Officers do likewise certifie unto the said Register, together with the quantity and quality of the Goods so seized, the time when, and ground whereupon he seized or demised the same, with such other circumstances as are fit to be known for exhibiting an information in the Exchequer against the same, in case the said Commissioners shall according to the trust reposed in them think fit so to direct. (e) Quantity and quality of the Goods seized, to be certified to the Register.

Concerning the Collectors Accompts.

(q) Collectors Accompts.

(q) Every Collector is to keep a Book in the Custom-house, wherein he is to enter all Goods and Merchandizes, as well imported into, as exported out of the Port whereunto he is appointed, with the value and Rates of Goods paying subsidy, and with the product thereof, and of all other duties.

Every Collector is within four dayes after the close of each Quarter, to send up a Book of all Entries passed in the Port and Members thereof under his charge, together with the subsidy, Custom and petty Custom arising thereby, or any other sums of money by him receivable or received, duly charged therein: As also an accompt currant of his receipts and disbursements, in which, as also in all accompts, he is especially to mention

The name, sir-name and Office of every Officer to whom he shall pay any salary, as also the time of the service for which such Officer is payd.

The particular services for which he shall disburse any sums of money upon petty charges together with the name and sir-name of the party receiving the same: upon payment whereof, he is to take Acquittances endorsed for his discharge, as well as for the Salaries, and other payments of greater moment.

With this Accompt currant, he is to send up all his Acquittances, and Vouchers thereunto appertaining, for the better passing his Accompt in the Commissioners generall Accompt, with the Auditors of the Imprest, and both theirs, and the Collectors discharge thereupon.

He is to divide every quarter into three periods, as from 25 Martij, inclusive, to 1. May exclusive, from the 1. May inclusive, to the 1. of June exclusive, from the 1. to the 24e June exclusive. And for the two first periods, to send up an abstract of his Receipts for the said month, signed by himself in order following, viz.

An Abſtract of the monies collected for Cuſtoms and Subſidy in the ſaid Port, from the 25° *Martij* incluſive, to the 1. *May* excluſive.

For Cuſtom and Subſidy outwards ——
For the like inwards ——
For petty Cuſtoms ——
For Coles ——

And the particulars of ſuch other Receipts as by Authority ſhall be from time to time ſetled and impoſed.

In Toto ——
Per A. B. Collectors.

And in regard the third moneth contains the cloſe of the Quarter, he is to make up his Quarter-Book, and to cauſe the ſame to be tranſmitted to the Commiſſioners aforeſaid, and the remaining dayes of that moneth, wherein is the termination of any Quarter, are to be added to the ſubſequent moneth: which Order is likewiſe to be obſerved in all the Member Ports, who do account to the Collectors of the head-Port, and to be timely by them tranſmitted to the Collectors, to whom they account, to be ſent to the Commiſſioners aforeſaid, and may not be omitted by them; for albeit their Receipt ſhould not produce any thing in ſome of the ſaid moneths, yet moſt of their monethly Abſtracts be returned with Nihil, and atteſted as aforeſaid, That the Common-wealth may know what to except at the end of each moneth; and neither the Commiſſioners nor Collectors be unduly charged.

He is in every Quarter-Book, to mention what Bills of ſtore or Portage he hath granted for that Quarter, the quantity of the Goods, the perſons to whom, and for what cauſe.

For the perfecting of this monethly Accompt with the Common-wealth, and freeing the Commiſſioners and himſelf from blame, he is conſtantly to make uſe of all Good, encounters, offering for returns of ſuch monies to the Commiſſioners as his Receipts ſhall from time to time afford, ſo as all his monies received, may be in readineſs with the Commiſſioners here, to make good his Ports Receipts within eight dayes after the cloſe of each moneth and quarter; and in caſe of failer of encounters, that he fail not to acquaint the Commiſſioners from time to time, that they may timely provide returns for ſuch monies, or take order otherwiſe to diſpoſe thereof, for his diſcharge therein; for whether the monies arive or not, the Commiſſioners muſt make good the Receipts of each Collector to the State, at the time appointed by them.

And

And for his ſatisfaction and diſcharge, and avoiding of all preju-dice, which may perchance by ſome be imagined to ariſe unto them, by parting with their Vouchers before their Accompts be determined, the Commiſſioners do declare, that as without ſight of the Vouchers, no demand can be allowed in Accompt; ſo upon receipt thereof, if he ſend duplicate of his Accompt currant, or a Liſt apart of ſuch Vouch-ers as he ſends up, the Commiſſioners will direct their Accomptant Generall (whoſe ſignature they will own) whereby the Commiſſi-oners will acknowledge the Receipt of the ſaid Vouchers, and charge themſelves therewith.

Every Collector is to ſend up unto the Commiſſioners (over and a-bove the four Quarter-Books, and the Accompts currant, and all things relating thereunto, as before mentioned) one years Book con-taining all particulars mentioned in his four ſeverall Quarter-Books, which years Book is to determine every four and twentith of June.

And to the end, the Collector in the Member-Ports, who do ac-compt to the Collector of the head-Port, may not be put to needleſs troubles in coming up to London, to take their Oaths upon their yearly Accompt: The Commiſſioners do direct, that the Collector of the head-Port, upon receipt of their Accompts yearly, do adminiſ-ter this enſuing Oath unto them. viz.

which Oath is to be transcribed at the foot of their Accompts, in their Book of yearly Accompt, and to be attested by the Collector as taken in his presence, which will be sufficient for his discharge, as to that which relateth not to his own particular.

In case any Collector of any the head-Ports, cannot come up to London at Midsummer, to take his Oath to the yearly Accompt, he is in such case to depose the truth thereof before the Collector of the next Port adjoyning in form following, viz.
